

Fanzines.

Experience 4, "People who make the difference!", students read and analysed fanzines about people who do actions in benefit of their community. After that, students were organized in groups and defined roles and responsibilities. They chose a person who they knew and admired for his or her work in their community in order to write about them. Surprisingly, most of people they chose were teachers, as you can see teachers were, are and will be the best influencers. Students designed beautiful fanzines using colorful paper, markers and colors. However, we present their texts in the form of articles here.
